About Us

EXAR International is a Saudi Arabia based company established in 2015 which has become an essential provider of top-quality products and trade services in the Saudi Arabia We've built up a reputation in this sector for excellence and reliability, through our long retail experience over the years.
Exar International is dedicated to providing top-notch goods that adhere to the highest norms of performance and quality. We provide a wide selection of products to meet your specific needs, whether you need tools and machinery, industrial supplies, or other necessities.
Our main goal is to give premium items as well as to guarantee that our clients get the most ideal help. With our accomplished group and a solid devotion to consumer loyalty.
Exar International stands as your trusted partner for fulfilling all your trading and product requirements across the Middle East & Africa.

Our Vision

Our vision is to redefine the tools supply industry by becoming the premier destination for professionals, DIY enthusiasts, and businesses seeking exceptional tools and equipment. We aspire to be the catalyst for innovation, empowering our customers to tackle any project with confidence, precision, and efficiency.

Our Mission

At **Exar,** our mission is to provide businesses in the Middle East & Africa with the highest quality tools and machinery, fostering growth, innovation, and operational excellence. We are dedicated to delivering exceptional products, unparalleled service, and expertise to empower our customers' success, while promoting sustainability and advancing industry standards.

The Benefits of Working with Exar

Quality Control: You may buy with confidence knowing that our items come from reputable companies with a reputation for dependability and performance.

Wide Range: We offer everything you need for your industrial and construction needs under one roof thanks to our wide range of products.

Exceptional Support: Due to our dedication to providing excellent customer service, we are available to you 24×7 to answer any questions or address any issues.

Reliable Partnerships: We work with leaders in the field to deliver goods that satisfy the highest standards for innovation and quality

EXAR POWER TOOLS

Uncover high-caliber power tools including pliers, screwdrivers, crimping tools, multimeter, clamp meter, scissors, hammer drills, tile cutters, table saws, cordless drills, circular saws, angle grinders, and a variety of other tools, meticulously crafted for professional applications. Featuring well-known names like STANLEY, BOSCH, Makita, DEWALT, Hilti ,Mataboo Total, and others.

MEASUREMENTS AND INSTRUMENTS

Mitutoyo handheld measuring devices are of outstanding quality.
Over 75 years of experience in the development and production of measurin devices have led to an amazing performance in terms of their accuracy, durability, and handling.

INSTRUMENTATION TUBE FITTINGS

Tube Sizes
1/16"OD TO 2"OD, 2MM OD TO 50MM OD

MATERIAL GRADES
SS 304, SS 316, BRASS, SPECIAL ALLOYS

THREAD
NPT, BSP, BSPT, UNF, ISO, SAE ETC.

PRESSURE RATING
6000PSI FOR STAINLESS STEEL, 300/1000/3000PSI FOR BRASS

Pressure Gauges - Dry Gauge - Bottom Mount

Ideal for indicating pressure above atmospheric.

Usable on air, oil, gas, water or any other pressure medium which does not attack bronze.

Install protective syphon when used on steam.

Pressure Gauges - Liquid Filled - Bottom Mount

For severe service requiring a waterproof, steamproof or weatherproof gauge, with the added problems of pulsation and vibration.

This pressure gauge has shock absorbing polyglide movement plus liquid filling to absorb effect of vibration and pulsation.

MALLEABLE IRON FITTINGS

QUALITY STANDARD FOR SOCKET WELD FITTINGS

We offer one of the most extensive selections of black and galvanized malleable iron fittings in the industry. Available in 13 diameters from 1/8" to 6", every fitting is produced to exact specifications. All galvanized products are zinc-coated for water applications - and meet all low-lead requirements. In addition, all of our iron fittings undergo our rigorous testing and quality inspection.

PRODUCT AVAILABILITY & HIGHLIGHTS

Stocked in most figures from 1/8" to 6"
Available in Black finish for oil and gas fluid applications.
Available in Galvanized finish for water, air and steam installations.
Available for servicing 150 psi and 300 psi applications.
Hot dip galvanizing process according to ASTM A-153 standards
Galvanized Products meet California Lead Plumbing Law

SPECIFICATIONS

Threaded ends meeting with ANSI/ASME B1.20.1 standards
Material meeting with ASTM A-197 standards
Dimensions meet the following:
Threaded Fittings - with ASME B16.3 standards
Unions with ASME B16.39 standards
Bushing Reducer and Plugs - with ASME B16.14 standards
Socket Weld Fittings are available in the following material grades:

SCREWED FITTINGS

QUALITY STANDARD FOR SCREWED FITTINGS

High quality fittings all made and controlled to the relevant standards such as: ASME, ASTM, BS and DIN/WERKSTOFFE.

SIZES AVAILABLE FOR SCREWED FITTINGS

Screwed Fittings are available available in sizes from 1/8" through to 4".

DIMENSIONS & PRESSURE RATINGS FOR SCREWED FITTINGS

BS3799 and ANSI B16.11
3000lb through to 9000lb.
Sch 10s through to Sch XXS and heavier.

SIZES AVAILABLE FOR REINFORCED BRANCH OUTLETS

1/4" through to 24"

DIMENSIONS TO MANUFACTURERS STANDARDS

Sch 10s through to Sch XXS and heavier.

½" to 14" (in all Schedules)
Larger sizes are available on request bases.

PRESSURE RATINGS

CL150, CL300, CL600, CL800-PN10, PN16, NPT
PN25, PN40-1000/2000/3000 PSI

END CONNECTION

NPT
SW
Flanged

FIRE & SAFETY VALVES

This standard covers iron-body, resilient-seated gate valves, including tapping gate valves, with nonrising stems (NRS) and outside- screw-and-yoke (OS&Y) rising stems for water supply service. 1.1.1 Sizes. Gate valves covered by this standard are 3 in. (75 mm), 4 in. (100 mm), 6 in. (150 mm), 8 in. (200 mm), 10 in. (250 mm), 12 in. (300) mm), 16 in. (400 mm), and 20 in. (500 mm) nominal pipe size (NPS). Sizes refer to the nominal diameter, in inches (or millimeters), of the waterway through the inlet and outlet connections and the closure area. 1.1.2 Valve pressure rating. The minimum design working water pressure shall be 200 psig (1,380 kPa [gauge]) for 3- through 12-in. (75-through 300-mm) size and 150 psig (1,034 kPa [gauge]) for 16- and 20-in. (400- and 500-mm) sizes. 1.1.3 Conditions and materials. not covered. This standard is not intended to cover special conditions of installation or operation, such as built-in power drive, installation in vertical or steeply inclined lines, conveyance of unusually corro- sive water, or excessive water hammer. Such conditions are beyond. the intended scope of this standard and require special consideration in design and construction. Joint accessories for end connections, such as bolts, gaskets, glands, follower rings, and so forth, are not covered in this standard.
